Pure, sweet skimmed milk—

KRYSTALAK

Better for cooking than fluid milk

THE pure, clean crystals of Krystalak are formed simply by removing the water from sweet, wholesome separated milk. Krystalak is therefore highly nutritious, being rich in the proteins so necessary for body building. Moreover, it is always ready for immediate use. The milkman may disappoint, but not so Krystalak. Whenever you want a certain quantity of clean, nourishing milk—dissolve 4 level tablespoonfuls of Krystalak to each cup of water.

Krystalak can be used for all cooking purposes where milk is required. It never sours—requires no ice to keep it sweet. The Krystalak supply is not affected by stalled delivery carts or milkmen's strikes. Know the comfort of always having wholesome, delicious milk in your home. When you have once known Krystalak satisfaction you will never go back to the old expensive way of keeping milk with the water left in it.
